Industry: Environmental/ Process
Location: Northern Ireland
Operating Temperature: 1100°C
Scope of Works: Thermal Oxidiser

Fibre Modular Lining – Cerablanket 1260c

Emissions into the environment are being scrutinised all over the world to help reduce global warming. We at LRIS recognise that the Environmental sector is one of our biggest growing and important markets.

Our linings for this type of unit are manufactured from the new Body Soluble fibre blankets which are not subject to the same strict disposal features as the RCF type materials.

The lining was constructed from 1260c rated fibre materials Cerablanket 1260c, the modular lining was manufactured to a nominal density of 175kg/m³. Anchorage was 316 S/S studwelded

QUALITY REFRACTORY LININGS
